Underground drainage Scheme of Shimoga Town -

File No PH 85 of 1941

Serial No	
1	No C 491-2/41-2 dt 8 12 1941 From The Director of public Health in Mysore Bangalore, forwards an estimate for Rs 6,30,650/ for the underground drainage Scheme of Shimoga Town and requests Sanction thereto (Subs for orders Hle 24 12 41 The Shimoga underground drainage Scheme may be examined from two Rational Standpoints - As a Sanitary Necessity & Problem of Finance. Whether an underground drainage system is Certainly a Welcome measure, truly enough a ne plus ultra of Sanitary arrangements; so far as Shimoga town is Concerned it looks as a luxury, at all events for the present, & in the last analysis The Population is stated to be 21,000 only C Vide Report. For this number, Some other type of drainage than the Costly underground drainage ought to be feasible - Shimoga is a Rational Park & may, as such, be in need of improvement as various other essential directions. It may be noted here that even at Bangalore, the scheme

NOTE—Contn Sheet

Shimoga Town - Underground Drainage

File No | of 194 | General and Revenue Secretariat

Serial No

of underground drainage, held as a crying necessity for the City, is taken up only in stages.

(1) As regards finance, the proposal of Govt meeting the whole cost to the tune of Rs 6 1/2 lakhs seems prima-facie an extravagant one, involving also a question of principle. A request for meeting half the cost would be within the pale of policy & standing orders. Relaxation in one instance would invoke a host of applications from other Municipalities. Availability of funds in the State Budget is yet another factor. Above all, the present time is not opportune for undertaking such work.

(2) By the Presidents own showing, the Shimoga Mcpty has received all possible consideration at the hands of Govt. - Vide his letter

(3) Points for orders resolve themselves into —

1) Whether the proposal to meet the whole expdre of over Rs 6 lakhs from Govt funds and to undertake the underground drainage scheme at

Shimoga Town - Underground drainage.

A 3415

General and Revenue Secretariat | File No | of 194 | [App F III—2

Serial No

Shimoga be accepted If so the P W Secy & the Fin Secy may be consulted or

2) Whether it may be pointed out to the M C Ty that Govt would meet a moiety under the Standy orders and an enquiry made how the other half would be met

or

3 Whether the M C Ty may be advised that in view of the present Commitments the Scheme is too costly and that some cheaper type of Drainage - open for instance, may be devised in Consultation with the D P H & the final proposal asked to be sent thro' the D C Shimoga

SK 24/12 The estimated cost of the underground drainage scheme is Rs 6 ½ lakhs The M C ty have in view of their poor finances, requested that the Scheme be financed as a Special case, entirely by the Govt This is not an acceptable proposal Even if the second alternative

Contn Sheet

Shrewsbury Town - Underground Drainage

File No | of 194 | General and Revenue Secretariat

Serial No

of the expense being shared equally by the M.C. & the Govt as suggested and the work was spread over a period of ten to fifteen years, then the Govt & the M.C. would each have to pay between twenty to thirty thousand rupees each per year. Having regard to the demands on the slender provision made under grants for improvements in the State Budget, it will not be possible to spare such a heavy sum for a single unit to the detriment of the interests of other units in the State otherwise an adequate grant will have to be given for this alone. Hence the scheme will have to be dropped for the present as being too costly & till the M.C. builds up its resources

(4) The third alternative of having a cheaper scheme or confining the scheme to certain areas such as extensions newly laid out or very bad portions in the old Town may perhaps be considered. If the estimate is within certain manageable proportions & could be worked out within a period of five to ten years, then it may be considered, provided the M.C. is ready & willing to bear a moiety of the cost

Shimoga District Tour Notes

22 A representation was made to me that the scheme for providing underground drainage to the Shimoga Town might be sanctioned and the entire cost met by Government in view of the meagre resources of the Municipality I observed that while underground drainage was desirable the cost (Rs 6,30 000) was prohibitive that it was therefore necessary to examine some less ambitious scheme with reference to the actual resources and the financial position of the Municipality and that it was not possible at present to give any assurance in regard to the Government grant which would be available for this purpose

1080
1 AUG 1945
S & BRANCH

U O No 44 Dated the 11th August 1945

84 The project for Rs 4,13,485/- forwarded for scrutiny has to be further revised to Rs 5,40,856/- in view of the present market rates for stone-ware pipes and the rate for Bhadravathi pipes, having been increased from Rs 8-8-0 to Rs 12/- per Cwt The revised estimate amounting to Rs 5,40,856/- prepared by the Sanitary Engineer based on the actual present market rates is herein enclosed

85 The project as now prepared was inspected by me on 10-7-45 during my camp at Shimoga and it was also discussed with the Deputy Commissioner, Shimoga District and the President, Municipal Council Shimoga by the Sanitary Engineer on 9-7-1945 The President, Municipal Council, Shimoga, has countersigned the revised estimate amounting to Rs 5,40,856/- and desires that the work should be taken up for execution immediately in one stage, as they feel that the question is pending ~~order~~ for more than 3 decades

86 The Municipal Council have agreed to share half the cost of the scheme payable in 30 annual instalments, the other half being met by Government The Deputy Commissioner, Shimoga District, after examining the financial position, and strained circumstances of the Municipality has recommended by to Government in his letter No M 3 C 3102/41-42 dated the 7th April 1945 that Government be pleased to bear three-fourths of the estimated cost and the remaining one-fourth being met by Municipality, this being granted as a loan by Government payable in 30 annual instalments It is left for the decision of Government as to how the cost is to be apportioned.

It may however be stated here that the present estimate for Rs 5,40,856/- provides for drainage of only the old Town and for completing the underground drainage as per comprehensive scheme prepared, the cost may come up to 10 lakhs inclusive of the present estimate

87 Sanction of Government may kirdly be obtained and com-

6609/11 re Shimoga Drainage 1080/

communicated to the revised estimate amounting to Rs. 5,40,856/- herewith forwarded to enable the work being taken up immediately

11/8

Chief Engineer for Roads and Buildings

1/8/45

89) The budget estimates of the ryots have not yet been received draft letter is putup to get the same

Sd 15/8/45

Sd 15/8/45

Has been received -

91) The financial condition of the Shimoga Taluk Dy Bd according to the Budget for 1945-46 is as follows —

TYPING SECTION 21 AUG 1945 SEN

Opening balance	Rs 60,495
Receipts	" 2,44,601
Total	" 3,05,096
Expenditure	" 2,76,300
Closing balance	Rs 28,796

91) The D.C Shimoga Distt has forwarded a modified scheme for the widespread damage in the Shimoga Town It has been scrutinised by the Chief Engineer for Roads & Buildings

92) The estimate amounts to Rs 5,40,836 The revised estimate was for Rs 4,13,405 The increase is said to be due to enhancement in the market rate for stone lifts & Headwaters lifts The estimate has been countersigned for Rs 5,40,836 by the President of the Shimoga Municipal

93) The work is proposed to be executed in three yearly stages

94) In regard to the financing of the scheme, the D.C Shimoga Distt recommends that it may be met equal proportion by the Govt & the Municipal - The President of the Municipal has however, prayed for the Govt meeting three-fourths of the costs in view of the low financial condition of the Municipal to bear

95) To enable the Municipal to bear its portion of the cost, the D.C has recommended sanction to a loan of the amount required being given,

the H/Ld, the Govt may
interest-bearing made repayable in
30 annual instalments. The amounts
proposed to be granted under the
realizations under Miscellaneous & other
Revenue

Points for notes —

96) 1) Sanction to the estimate for Rs 5740837
as sanctioned by the Chief Engineer &
Sanction to take up & execute the work
in three yearly stages

3) To meet the expenditure from the fund
for the H/Ld the proportion in which
it has to be met has to be decided —
whether it is to be met fully by
Govt or three fourths from funds of Govt
& the H/Ld respectively

4) To advance a loan to the H/Ld
at the rate of 4 ½ % — usually levied for
the local bodies & repayment 30 annual
instalments — the amount to be advanced
depends upon the proportion in which the
expenditure would be ordered to be met
It is reported that the financial condition
of the H/Ld is not satisfactory Mr. D/H.

96) Headquarters Mly, needs sympathetic assistance from the Govt

97) Mus is a central matter

98) The financial Secy may be consulted in the matter

Addl Secy to

Special presentation on this behalf stated to have been made to the Dewan Minister for Agriculture

II

116) These papers relate to the grant of a loan to the Shimoga Municipality The loan is required for underground drainage scheme The present estimate is for about Rs 5 4 lakhs If the Estimate is based on the present rates, it is not likely that the estimate will be exceeded

117) The underground drainage scheme is very necessary and from this point of view the estimate has to be sanctioned The Deputy Commissioner has suggested that 3/4th of the amount may be given as a grant and 1/4th, as a loan This is very unusual Ordinarily the Government grant is limited to 1/2the amount ~~and~~ the Municipal Council itself has already agreed to bear the other half the cost of this scheme ~~So~~ Half the estimated cost may therefore be sanctioned as a grant and the other half as a loan The rate of interest suggested is 4½% This is high enough and may be accepted

118) The loan need not be disbursed in one instalment I think as the work proceeds, half the cost may be debited monthly to the loan and half treated as grant It is presumed that satisfactory arrarge ments will be made by the Municipality to repay the loan and that the repayment will be in the interests of the Municipality commence from 1945-46 only

Shimoga drainage scheme

The following are the two cases wherein govt have sanctioned both loans and grants for improvement works —

1) In connection with the execution of the Kathral Project Scheme for the supply of water to Chitaldrug Town at an estimated cost of Rs 4,27,500, The cost was ordered to be met by the govt and the local municipal council in the proportion of 3:1 In order to enable the municipal council to meet their share of the cost, a loan of Rs one lakh carrying interest at 4½% pa and made repayable in 25 annual instalments was granted to them

2) Recently, govt have granted a loan of Rs 3,17,325/- as also an equal sum as an outright grant out of state funds to the Mysore city municipal council for the improvement of water supply in Mysore city the loan carries interest at 3½% to be repaid in 20 annual instalments

Subject to orders of the Minister for Revenue on the enquiry undertaken Thereto below

NOTE—Contn Sh et

File No of 194

General and Revenue Secretariat

Serial No

Submitted to His Highness

Reported representations have been made by the Shimoga Town Municipal Council and the local public for provision of underground drainage in the town

A comprehensive drainage scheme for the town has been prepared by the Bureau of Sanitary Engineering at a total cost of about Rs 10 lakhs and the Municipal Council propose to carry out the scheme in two stages The estimate for the first stage has been scrutinised by the Chief Engineer for Roads and Buildings and corrected to Rs 5 40 856/-, inclusive of Rs 32 500/- for carrying out surface drainage work in certain localities where the poorer classes of people live

The Deputy Commissioner, Shimoga District has recommended sanction to the following proposals submitted by the Municipal Council -

1 An outright grant equal to three-fourths of the cost of the first stage of the scheme may be given by the Government the balance being met by the Municipal Council

2 In order to enable the Municipal Council to meet its quota a loan equal to one-fourth of the cost may be advanced to the Municipal Council

Having regard to the slender resources of the Shimoga Town Municipal Council and the urgent need for the provision of underground drainage in the Town it is proposed to sanction the request of the Municipal Council for an outright grant of three-fourths of the cost of the first stage of the scheme and for a loan to meet the Municipal Council's share of one-fourth of the cost The loan will carry interest at 4½ per cent and will be repayable in 15 annual instalments

4)132 Rs 4 Nobles
same 131 of Nobles

All the Ministers have agreed to the proposal except the Minister for Revenue who has suggested a grant of two-thirds and a loan of one-third of the cost

I am in favour of the proposal to make a grant of three-fourths of the cost and to give the balance as a loan to the Municipal Council I solicit His Highness's gracious sanction to the proposal

Sir,

Underground Drainage scheme of Shimoga Town -- Estimate for Rs 6,30,650/-

---

I have the honour to forward herewith for favour of sanction the above estimate, with plans and report, duly countersigned by the President, Municipal Council, Shimoga A copy of letter No C 1-56/41-42 dated 25-11-1941 of the President with a copy of the resolution of the Council - approving the estimate and resolving that Government be requested to meet the entire cost of the scheme in view of the very poor present finances of the Municipality is also enclosed for the information of Government

I have the honour to be,
Sir,
Your most obedient servant,

Director of Public Health

Letter No C 1-56/41-42 dated 25th November 1941, from the President, Municipal Council, Shimoga, to the Sanitary Engineer, Bangalore

Subject Underground Drainage of Shimoga Town

In returning herewith the plan and estimate for Rs 6,30,650/- for the above work duly countersigned for the full amount, I have the honour to state that the Municipal Council took up the subject on 30th August 1941 and after a great deal of discussion passed a resolution that the Government be approached to sanction an outright grant to work out this scheme in view of the poor financial condition of this Municipality A copy of the Council resolution is herein enclosed for your kind perusal

In this connection, I wish to state that the Municipality is highly indebted at present to work out the scheme without approaching the Government to request for such help It is liable to pay more than Rs 1.50,000/- to the Government in respect of loans and arrears of Water supply maintenance charges which is not possible to clear under the slender resources of this Municipality It has spent all the moneys sanctioned by the benign Government of His Highness in the shape of loans and grants on Town Improvement schemes such as water supply, breaching of tanks, acquisition of lands for Municipal Boundary extension and removal of congestion in the Town, tarring of roads, construction of the New Shandy Maidan, the New Slaughter house and the New Mutton Stalls, Revetment of Tunga River Bank near Savayipalya to prevent erosion and acquisition of lands for lay out of parks and creation of Open spaces These works have practically left the municipality without any surplus on hand to take up the underground drainage scheme On the other hand these works have involved it into heavy debts and it will be sometime before it could free itself from these burdens

Such being the circumstances it is not strange that the Council should propose to approach the Government for a generous outright grant to work out the scheme in question Further it will not be out of place if I were to state that the Health and sanitation of this place would greatly improve if this scheme is substantiated which is a necessity considering the largeness of the town and its increased population

I therefore request that the Government be kindly moved to finance the scheme themselves as a special case as resolved by the Municipal Council and help to carry out as expeditiously as possible

Date of issue 4th Feb '42

Signed by Mr G Ramachandra Rao

with reference to your letter No C 1-56/41-42 dy 25 11 41 from the Asst, Shimoga Town Mal cl addressed to the San Engineer, I am directed to state that the Dr of Pub Health has forwarded the papers to Govt, with a copy of the resolution of the Mal cl that the entire cost of the Scheme be met by Govt.

Enclosures

This proposition is not acceptable to Govt for the simple reason

by

WD 03695—GPB—30 000—29 1 40

that the cost is too heavy

Under the rules only half the cost of such projects could be met by Govt, provided the Municipality meets the other half and the total cost is also within reasonable limits

Having regard to these ~~circumstances~~ and new any conditions, which cannot be departed from,

the only alternative left is to devise a cheaper scheme of drainage Confining it to certain Specified areas for the present, such as New extensions or very insanitary parts of the old Town Even for this purpose, the cost should be limited, so that the cheaper scheme could be worked out within a period of 5 to 10 years, provided of course the Municipality would meet a moiety of the cost

I am accordingly to request that a cheaper scheme be submitted

Sir,

Subject:- Drainage Scheme of the Shimoga Town only

I am directed to state that a representation was made to the Dewan during his tour in the Shimoga District that the underground drainage scheme for the Shimoga Town be sanctioned and the entire cost met by Government in view of the meagre resources of the Municipality

The cost of the scheme, Rs 6,30,653 is clearly prohibitive and it is therefore necessary to examine the possibilities of a less ambitious scheme with reference to the actual resources and the financial position of the Shimoga Town Municipality as already stated in this office letter No L 7183/ML 85-41-21 dated 11th February 1942 I am therefore to state that Government would be prepared to consider a scheme modified on the said lines and to request that suitable proposals in the manner indicated in the concluding para of the aforesaid letter of 11th February 1942 be submitted, in consultation with the Director of Public Health

I have the honour to be

GV 3/

OFFICE OF THE MINISTER FOR L S G & P H

Letter No C 1 56/41-42 dated 6th August 1942 from the President Town Municipal Council, Shimoga, to the Director of Public Health in Mysore Bangalore

*****

Subject - Underground drainage of Shimoga Town

I have the honour to state that during the visit of the Dewan to this Town in February 1942 it was represented to him by the Council that owing to the meagre resources at the disposal of this Municipality the Scheme for providing under-ground drainage to the Shimoga Town might be sanctioned and the entire cost be met by Government The Dewan observed that while underground drainage was desirable the cost was enormous He ~~hx~~ said that if the Municipality submits a less ambitious scheme in consultation with the Director of Public Health the Government might consider the question of subsidising the scheme The Government might consider the question of subsidising the scheme The Government also in their letters No. 7183/ML 85-41-21 dated 11-2-42 and L 9545/ML 81-41-3 dated 9-4-42 (copies of which are herein enclosed) have observed that the scheme devised for under-ground drainage of the Town by the Municipal Council is so costly that they cannot consider it at all at present and have therefore requested that a modified scheme of drainage confining it to certain selected localities of the old town etc be prepared and submitted for consideration The matter was therefore immediately placed before the Municipal Council in their Meeting ~~held~~ on 25-2-42 for consideration and it was then resolved that the Managing Committee may go through the entire matter and give their opinion therefor The Managing Committee after discussing the subject at length opined th t the Sanitary Engineer might be requested to modify the scheme to cost about three lakhs of rupees in the light of the letters from Government referred to above This proposal of the Managing Committee was approved by the Council in their General Meeting convened on 25-7-42 A copy of the Council Resolution is herewith enclosed for your kind reference I therefore request you to

kindly

kindly arrange to prepare a modified scheme to cost about three lakhs of rupees as desired by Government selecting certain parts of the Town only

In this connection I wish to inform you that it is desirable that the Sanitary Engineer may meet the Municipal Council to discuss matters connected with the scheme So if you will please intimate the date on which it will be convenient for him to meet the Councillors, I shall arrange to call a Meeting of the Council for the purpose I therefore request you to kindly send a line in reply The plan and the estimates for Rs 6,30,000 connected with the above scheme are herewith returned which may kindly be acknowledged

****

Sir

Subject - Modified Scheme for the under Ground Drainage in Shimoga Town

With reference to your D O Letter No L 5983 dated 16th December 1944, on the above subject, I have the honour to state as follows -

After the receipt of the modified estimate for Rs 3,76,[illegible]0/- from the Director of Public Health in Mysore, Bangalore, the Town Municipal Council, Shimoga at its meeting held on 22-7-44, considered the question of adopting the Scheme in question and further passed resolution to the effect that Government be requested to extend a munificent grant for the purpose to meet a moiety of the cost and to sanction a loan to the Municipality (without interest) to meet the balance cost Vide resolution Copy enclosed for kind reference

In the meanwhile, the question of adopting the under Ground Drainage Scheme was brought to the kind notice of the Dewan during his Visit to Shimoga Town in August 1944

The Dewan was pleased to suggest that surface drains be provided in poorer localities and that revised estimates might obtained in consultation with the Executive Engineer, Shimoga

In pursuance of the instructions conveyed by the Dewan the entire drainage file was forwarded to the Executive Engineer, Shimoga, for causing necessary modifications and to return the Plan and Estimates

It is ascertained that the Executive Engineer has addressed the Sanitary Engineer, Bureau of Sanitary Engineering

for furnishing detailed revised Estimates (in his letter No 447 dated 22-9-44) and that the matter is under correspondence between the Sanitary Engineer, Bureau of Sanitary Engineering, and the Director of Public Health

I have however forwarded a copy of your D C Letter under reference to the Director of Public Health, Bangalore and to the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore, for furnishing immediately the revised Estimates and plans

I am to add that after receipt of the revised Estimates, definite views of the Municipal Council, Shimoga, as to their willingness to adopt the revised Scheme for providing surface drainage and the ways and means of financing the same will be obtained and forwarded to Government

I have the honour to be,
Sir,
Your most obedient servant

Deputy Commissioner,
Shimoga District

Sir

Underground drainage scheme of Shimoga Town for Rs 30,500/-

I have the honour to enclose herewith a provisional abstract estimate prepared by the Sanitary Engineer costing Rs 30,500/- for providing and laying 4" stone ware half pipes in concrete bed

The diseases that are prevalent and which require attention in the poor localities of Shimoga are diarrhoea and dysentery and typhoid and if these diseases are to be attended to, it is better the benefits of the underground system are also extended to the poor people as the people of the poor localities cannot afford to have connections, it is recommended that the amount of Rs 30,500/- that is estimated for laying surface drains be provided to give cement concrete pans and underground connections so that they may have the benefits of the underground system and others may also be benefitted as the diseases diarrhoea, dysentery and typhoid spread from the poorer localities to other areas

Modified Scheme for the underground Drainage in Shimoga Town

With reference to our Memo No L 7296/22nd January 45 on the above subject I have the honour to forward herewith for favour of reference a copy of letter No 674 dated 27th December 44 addressed by the Senitary Engineer Bureau of Sanitary Engineering Bangalore, to the Director of Public Health Bangalore in the matter, wherefrom it is seen that both the Director of Public Health Bangalore, and the Sanitary Engineer Bureau of Sanitary Engineering have proposed to retain the original provision in the Estimate for Rs. 3 76 110/-

As the entire file of records relating to the project estimates is stated to be with the Director of Public Health in Mysore Bangalore I have requested him to finally place the papers before Government for early orders

I have the honour to be
Sir
Your most obedient servant

for DEPUTY COMMISSIONER
Shimoga District

CRR/A.

LETTER NO 674/ dated 27th Dec 44 from the Sanitary Engineering Bangalore to the Director of Public Health in Mysore Bangalore

PROPOSED DRAINAGE SCHEME TO

In continuation of this office No 406/14-10-44 on the above subject I have the honour to submit herewith the entire file papers connected with the project estimate Amounting to Rs 3 [illegible]10/- received for the Executive Engineer Sidlaghatta Division for favour of further needful ~~action~~

The question of providing surface drains in localities where poorer people reside was discussed by the Deputy Commissioner during his inspection of Sidlaghatta during August 1944 was discussed by the undersigned with the Director of Public Health and Bangalore and it was decided that the original provision of the estimate may be retained in further consultation with the Dewan

The President Town Municipal Council Sidlaghatta has counter since the estimate requesting the Deputy Commissioner to recommend the Government for sanctioning the project and providing funds [illegible] these circumstances the entire file of records relating to the project estimate is resubmitted for favour of out taking necessary further action in the matter

Sir

Sub - Modified Scheme for the underground Drainage in Shimoga Town

With reference to your letter No L.8833 dated 5th March 45 on the above subject in the matter of forwarding the opinion of the Shimoga Town Municipal Council on the question of financing the Scheme in question I have the honour to forward herewith for favour of reference the marginally noted letters received from the President, Shimoga Town Municipality and to state that in pursuance of the resolution passed by the Municipal Council at its meeting held on 14-3-45 the Municipal President has countersigned the revised Estimate for Rs. 4 13 485/-

2 The Municipal Council has agreed to bear the half the Estimated cost of the Scheme (vide resolution copy enclosed for favour of reference) Regarding the question of bearing its share of cost the Municipal Council proposes to meet the expenditure from the anticipated increased income under Mohatarfa Octroi and other taxes

3 With regard to the question of taking up the Scheme in early stages the Municipal President states that the Drainage Scheme under reference is a part of the comprehensive Scheme of Rs 6 30,650/- originally prepared and adds that at the time of the interview with the Dewan and the Minister for Local Self Government it was represented that the entire scheme for the whole town be taken up once for all and finished in three years He further states that

that a representation was made to the effect that the Scheme might be ordered to be financed both by Government and the local Municipal Council in equal proportions and that the Municipal Council be granted loan of equal sum on easy rate of interest repayable in 30 years to share its portion of cost

4 The Municipal President in his letter No C1 5/44-45 dated 29th March 45 states that in view of the numerous demands for taking up improvement works by the Municipal Council and the fact that Shimoga Town is the Centre of the Malnad an admittedly back ward tract is in dire need of special help from Government Government be pleased to bear three fourths of the estimated cost viz Rs 3 10 121-12-0 by way of sanctioning Grants for the purpose and to sanction to the Municipality a loan to bear the balance cost i e one fourth of the estimated cost which works out to Rs.1 03 363-4-0

5 I write to state in this connection that under the rules only half the cost of such projects could be met by Government as already pointed out in para 3 of your letter No 7183/M1 85-41-21 dated 11th Feb 1942 As worked out on the above basis the moiety of the cost to be borne by Government and the Municipal Council will be Rs.2,06,742-8-0 by each

I have looked into the financial position of the Municipality In its straitened finances the Shimoga Town Municipal Council will not be in a position to bear its share of half the cost of the estimated sum unless some relief is shown to it by Government by way of sanctioning the loan prayed for The Municipal Council has already taken action to augment its resources by levying the existing taxes on house and lands and by levy of Octroi duty on certain additional commodities Proposals for enhancement and levy of Octroi duty by the Shimoga Town Municipality have been forwarded to Government for their orders Kind reference is invited to this Office letter No M3 C 1412/41-42 dated 4th April 45 With the sources of income pointed out above, the Municipal Council, Shimoga may be able to repay the proposed loan

6 In the circumstances I request that orders of Government may kindly be obtained on the following points viz 1 to accord administrative sanction to the Scheme in question 2 to sanction a moiety of the estimated cost from Government out of the Town Improvment Grant to sanction a loan to the Shimoga Municipality a like sum on easy

late of interest repayable in 30 annual instalments the annuity amount being met from the realisations under Mohatrina and the Octroi Revenue

4 the entire Scheme be permitted to be taken up and finished in three equal stages

The entire records bearing on the subject together with the Plans and Estimate accompany for your of reference

I have the honour to be
Sir
Your most obedient servant

Sir,

With reference to your letter no N3 C 3102/ & 7-4-'45 forwarding an estimate for Rs 4,13,1 for the drainage scheme at Shimoga, I am directed to state that the estimate for Rs 4,13,465/- has been scrutinised by the Chief Engineer for R and corrected to Rs 5,40,856/- and to request you to furnish further information on the following points within three days in order to enable the Govt to sanction the scheme at an early date —

In this connection I am to

PTO

WD 0282—GPB 22 500—14-3 38

3

1) Whether the shareholders are agreeable to find from out of their funds half the cost of the entire scheme & if not, to what extent they could bear the cost?

2) At what interest could they raise loans to meet their share of the cost & on what terms could the loans be given from the govt?

3) Whether they cannot defray the said loan by levying local taxes in annual instalments out of the realisations from the levy of octroi or other taxes on certain articles, the levy of market fees etc, instead of in 30 annual instalments

and 4) What is the total anticipated income every year from the levy of such octroi, market fees etc, in the mofussil, in case powers by laws on the subject are granted for the benefit of the municipality?

The results of enquiry may be obtained on the above points and submitted to govt immediately

OFFICE OF THE PRESIDENT
TOWN MUNICIPAL COUNCIL

Shimoga Dated 4th October 1945

From

The President
Town Municipal Council
SHIMOGA

ADDITIONAL SECRETARY
To

The Additional Secretary to
the Government of
His Highness the Maharaja of Mysore,
BANGALORE

Sir,

Subject:- Modified Drainage Scheme
Shimoga Town

With rererence to your letter No L 2791 dated 2-10-1945 addressed to the Deputy Commissioner, Shimoga District, Shimoga calling ror certain particulars on the aoove subject, I have the honour to state as follows:-

As regards the 1st point raised in your letter, tne Municipal Council at their Special meeting held on the 3rd instant have resolved that Government may be requested to meet the entire cost or the Scheme i e , 3/4ths by way of an outright grant and 1/4th as loan repayable in 25 instalments in view of the fact that Shimoga Town being situated in the centre or the Malnad of the State, is lagging behind inspite of its usefulness to the state in several ways, such as, supply of food grains and the payment of large sums of excise duty on arecanut and other taxes

As regards the 2nd point, the Municipal Council have resolved that interest at 3½% may be charged on the amount that is to be advanced to the Municipality instead of 4½% that is usually charged for loans sanctioned to local bodies

With regard to the 3rd point referred to in your letter under advertance, the Municipal Council have resolved that the

number of instalments to repay the loan may be fixed at 25 in view of the other existing obligations I expect to discharge in a much shorter time, but as a term of an agreement 25 is not unreasonable

In the matter of the 4th point raised in your letter under reply, as I mentioned to you in person, the Council are sure to get an additional income of not less than Rs 20,000/- by revision of the Monatarfa and reasonably expect an additional Rs 15,000/- under Octroi in case the draft bye-laws now pending sanction of Government are approved. Even without the revision, there has been an increase to the tune of Rs 7,000/- in 1944-45 as compared with 1943-44 All possible vigilance will be employed Besides these two sources, there is the stamp duty (kindly sanctioned by Government recently) which is expected to yield at least Rs 3,000 This does not take into account other sources of the Municipality such as sale of sites by which alone the Council was able to realise nearly Rs 85389/-

There has been considerable improvement in the financial position of the Municipality, as can be seen from the enclosed comparative statement No doubt the calls on its income are also many, and several improvements have to be effected side by side Nevertheless, I can confidently say that it is quite possible for the Municipal Council to repay the loan in 25 annual instalments with interest at 3½%

The additional income under the heads referred to above may even be earmarked for the repayment of the loan if Government so desire Government are also aware that the question of disposing of the Old Shandy Maidan is pending since a long time and that the Municipal Council reasonably hope to realise a very considerable sum from the sale If Government so desire, the Municipal Council will bind themselves to pay

up a major portion or or the entire proceeds or the sale towards either the existing loans or the loan that may be advanced for the drainage scheme As regards the clearing of the slums round about the old shandy maidan, the Municipal Council are equally keen and are willing to take a loan at any easy rate Government would be pleased to stipulate But in the opinion or the Council, this need not be linked up with the disposal or the old shandy maidan as the two questions and areas are separable Especially, as Government would seem to require some proof of the earnestness of the Municipal Council, it is only reasonable that to that end, i e , to assure and satisfy the Government← Government are pleased to permit the sale and to trust the bona fides of the Council If, however, Government think that this question must necessarily require a much longer time, and if Government do require such proof, the Municipal Council would deposit one instalment of the loan in advance

I am sure, Government are aware that this is a special case in view of the fact that this is a Malnad and backward tract and the head quarters and centre of a district that has been till recently a granary for the state and wherein the tax on areca alone is several lakhs I am sure Government are also aware of the condition of the Municipality till now, its vast area and its scattered portions and the odds and the dirriculties that the Municipal Council have to contend against and the imperative necessity of eradicating malaria and ensuring the health of the district and the town Government can therefore judge (having regard to all the circumstances mentioned above) what exactly is good for the town Should Government however think that any reasonable modirications are necessary, the Municipal Council would be agreeable to accept the same whether in respect of the rate of interest or number of instalments for payment of loan etc

Under these circumstances, I request you to be so good as to obtain sanction of Government to the Scheme immediately I also strongly hope and trust that there ~~will be~~ no more doubts will crop up and there will be no need for further correspondence in this matter, and that in the interest of the health of the Town you will kindly obtain and communicate the sanction of Government without any loss of time

I may add that the sanction of the drainage has been long looked forward to by the public of the town and that they will be sorely disappointed if any further doubts were to raise their heads

A copy of the resolution of the Municipal Council is enclosed for favour of reference

I have the honour to be,
Sir,
Your most obedient servant,

President,
Shimoga Town Municipal Council

To

The Additional Secretary to Government,

Bangalore

ADDITIONAL SECRETARY Sir 11/10

Subject - Modified Drainage Scheme for Shimoga Town estimated cost Rs.5,40,856/-

With reference to your letter No L 2791 dated 2nd October 1945, on the above subject in the matter of furnishing the definite opinion of the Shimoga Town Municipal Council, as to what extent they could bear the cost towards the proposed Drainage Scheme etc , I havethe honour to invite kind reference to the letter No C1-5/44-45, dated 4th October 1945, addressed to you, direct in the matter, by the - President, Shimoga Town Municipality, and to state that the Municipal President has discussed the question under reference in detail and has pointed out therein the definite sources of income which could be earmarked towards the repayment of the loan amount of Rs 1,35,214/- applied for

2 The Municipal President states that your letter under reference was discussed in detail by the Municipal Council at its special General Meeting held on 3-10-1945, wher-the following resolutions were passed viz -

i) that as regards the 1st point as to whether the Shimoga Town Municipal Council are agreeable to meet half the cost-of the entire scheme, The Council has passed a resolution to the effect-that Government be requested to meet the entire cost of the Scheme, three fourths by way of sanctioning an outright grant, and the balance viz , 1/4th cost amounting to Rs 1,35,214/- by way of a loan to the Municipality, repayable in 25 annual instalments,

ii) that as regards the 2nd point regarding the rate of interest to be charged, the Municipal Council requests that interest at 3½% be charged on the loan to be advanced,

iii) and that as regards the third point, viz , whether the Municipal Council cannot repay the loan in 15 annual instalments, the Municipal

Council have resolved that the number of instalments to repay the loan might be fixed at 25 in view of the fact that the Municipal Council, Shimoga, has other heavy obligations to discharge It was further resolved that the Municipal Council would be prepared to deposit one instalment of the loan in advance, if Government were to require such proof

3 A copy of the resolution of the Municipal Council received in the matter is forwarded herewith for favour of reference

4 With regard to the fourth point, raised in your letter under reply, I write to state that there has been a general increase of Municipal Revenue under several items, such as under Mohatarfa, Octroi, Sale of Sites, etc , The revision of assessment on house and land taxes, which was taken up by the Assessing Officer has since been completed The Assessing Officer has shown a net increase of Rs 9,842/- under house and land taxes Even with the existing rate of octroi duty levied on several commodities, there have been indications of considerable improvement under Octroi Revenue for the past five years as detailed in the margin * With the levy of revised rate of Octroi duty it is expected to realise a decent income under Octroi According to the current year (45-46) sanctioned budget, it is expected to realise Rs 60,000/- and Rs 1,000/- under Octroi and Market fee items respectively Besides the aforesaid two important items of Municipal revenue there has been considerable increase of income under several other items such as Toll, sale of sites, sale of manure, water service fees and other miscellaneous items

*

During the years	Amt realised
1940-41	Rs 24,304/-
41-42	28,185/-
42-43	34,690/-
43-44	42,143/-
44-45	49,372/-

5 A Statement furnishing comparative figures under several items of Municipal Revenue, is forwarded herewith for favour of reference

6 The Municipal President states that it would be quite possible for the Municipal Council to repay the loan in 25 annual instalents with interest at 3½%, by earmarking the additional antici

anticipated unler the several heals, such as Mohatarfa, Octroi Revenue, Market fees, Income to be lerivel from Stamp Duty anl froi other ma,or heals

7 I write to state in this connection that I have lookel into the financial position of the Municipality Accorling to the current year's 45-46 sanctionel Bulget, the income ard expenliture of the Municipality is as follows -

1	Opening balance for 45-46	Rs 60,495/-
2	Receipts for 45-46	2,44,601/-
3	Total Receipts	Rs 3,05,096/-
4	Expenliture	2,76,300/-
5	Closing balance	28,796/-

8 The necessity and importance of taking up the Drainage Scheme for Shimoga Town, has alrealy been explainel to Government in my previous communications With its existing heavy obligations the Municipal Council, Shimoga will not be in a position to bear, the entire cost of the Scheme, unless relief is s own to them by Government, by way of of sanctioning 3/4 cost of the Scheme amounting to Rs 4,05,642/- as an outright grant from Government, anl to further sanction a loan amounting to Rs 1,35,214/- to meet, the Municipal quota i e ¼ share of the estimated cost

9 The present request of the Municipal Council for sanctioning a loan of Rs 1,35,214 at 3½% interest, repayable in 25 annual instalments, appears to be reasonable anl leserving of sympathetic consideration by Government The present Municipal President has been taking keen interest in improving the financial conlition of the Municipality anl I feel that the Municipal Council, will be able to lischarge the loanthey have now applied for, as explainel in para 4(supra) of this letter

10 In the circumstances, I request that orlers of Govemment may kinlly be obtainel on the following points viz

1) to accord Administrative sanction of Government to the Scheme in question

2) to sanction 3/4 of the cost, amounting to Rs 4,05,642/- as an outright grant from Government to enable the Municipal Council to take up immediately, the Scheme on hand

3) to sanction a sum of Rs 1,35,214/- as Loan to the Municipality, on easy rate of Interest at 3½ %, the entire Loan amount being made re-payable in 25 annual instalments

I request the favour of early orders of Government in the matter

I have the honour to
Sir,
Your most obedient servant

Town Municipal Council
Shimoga
4th October 5

From

The President,
Town Municipal Council,
SHIMOGA

The Additional Secretary to
the Government of
His Highness the Maharaja of Mysore,
BANGALORE

Sir,

Subject - Modified Drainage Scheme for
Shimoga Town

With reference to your letter No L 2791 dated 2-10-1945 addressed to the Deputy Commissioner, Shimoga District, Shimoga calling for certain particulars on the above subject, I have the honour to state as follows:-

As regards the 1st point raised in your letter, the Municipal Council at their Special meeting held on the 3rd instant have resolved that Government may be requested to meet the entire cost of the scheme i e , 3/4ths by way of an outright grant and 1/4th as loan repayable in 25 instalments in view of the fact that Shimoga Town being situated in the centre of the Malnad of the State, is lagging behind inspite of its usefulness to the state in several ways, such as, supply of food grains and the payment of large sums of excise duty on arecanut and other taxes

As regards the 2nd point, the Municipal Council have resolved that interest at 3½% may be charged on the amount that is to be advanced to the Municipality instead of 4½% that is usually charged for loans sanctioned to local bodies

With regard to the 3rd point referred to in your letter under advertance, the Municipal Council have resolved that the

number of instalments to repay the loan may be fixed at 25 in view of the other existing obligations I expect to discharge in a much shorter time, but as a term of an agreement 25 is not unreasonable

In the matter of the 4th point raised in your letter under reply, as I mentioned to you in person, the Council are sure to get an additional income of not less than Rs 12,000/- by revision of the Mohatarfa and reasonably expect an additional Rs 15,000/- under Octroi in case the draft bye-laws now pending sanction of Government are approved Even without the revision, there has been an increase to the tune of Rs 7,000/- in 1944-45 as compared with 1943-44 All possible vigilance will be employed Besides these two sources, there is the stamp duty (kindly sanctioned by Government recently) which is expected to yield at least Rs 3,000 This does not take into account other sources of the Municipality such as sale of sites by which alone the Council was able to realise nearly Rs 85,389/-

There has been considerable improvement in the financial position of the Municipality, as can be seen from the enclosed comparative statement No doubt the calls on its income are also many and several improvements have to be effected side by side Nevertheless, I can confidently say that it is quite possible for the Municipal Council to repay the loan in 25 annual instalments with interest at 3½

The additional income under heads referred to above may ever be earmarked for the repayment of the loan if Government so desire Government are also aware that the question of disposing of the Old Shandy Maidan is perding since a long time and that the Municipal Council reasonably hope to realise a very considerable sum from the sale If Government so desire, the Municipal Council will bind themselves to pay

up a major portion of or the entire proceeds of the sale towards either the existing loans or the loan that may be advanced for the drainage scheme As regards the clearing of the slums round about the old shandy maidan, the Municipal Council are equally keen and are willing to take a loan at any easy rate of interest Government would be pleased to stipulate But in the opinion of the Council, this need not be linked up with the disposal of the old shandy maidan as the two questions and reasons are separable Especially as Government would seem to require some proof of the earnestness of the Municipal Council, it is only reasonable that to that end, i e , to assure and satisfy the Government Government are pleased to permit the sale and to trust the bona fides of the Council If, however, Government think that this question must necessarily require a much longer time, and if Government do require such proof, the Municipal Council would deposit one instalment of the loan in advance

I am sure Government are aware that this is a special case in view of the fact that this is a Malnad and backward tract and the head quarters and centre of a district that has been till recently a granary for the state, and wherein the tax on areca alone is several lakhs (Lacs) I am sure Government are also aware of the condition of the Municipality till now, its vast area and its scattered portions and the odds and the difficulties that the Municipal Council have to contend against and the imperative necessity of eradicating malaria and ensuring the health of the district and the town Government can therefore judge (having regard to all the circumstances mentioned above) what exactly is good for the town Should Government however think that any reasonable modifications are necessary, the Municipal Council would be agreeable to accept the same whether in respect of the rate of interest or number of instalments for payment of loan etc

Under these circumstances, I request you to be so good as to obtain sanction of Government to the Scheme immediately I also strongly hope and trust that ~~there will be~~ no more doubts will crop up and there will be no need for further correspondence in this matter and that in the interest of the health of the Town you will kindly obtain and communicate the sanction of Government without any loss of time

I may add that the sanction of the drainage has been long looked forward to by the public of the town and that they will be sorely disappointed if any further doubts were to raise their heads

A copy of the resolution of the Municipal Council is enclosed for favour of reference

I have the honour to be,
Sir,
Your most obedient servant,

Sd/- R K Jayathirthachar

President,
Shimoga Town Municipal Council.

KH

Copy of the above together with a copy of the resolution of the Municipal Council is forwarded with compliments to the Deputy Commissioner, Shimoga District, Shimoga for favour of information In view of the urgency of the matter the letter in question has been addressed to the Additional Secretary to Government direct The undersigned requests that a strong recommendation may kindly be made to Government for immediate sanction of the Scheme without any more doubts on the matter

By

President,
Town Municipal Council,
Shimoga

NOTE REGARDING UNDERGROUND DRAINAGE SCHEME FOR SHIMOGA TOWN

1 The present estimate for Rs 5,40,856/- is for the first stage of the comprehensive scheme which costs about ten lakhs

2 The main items of the estimate are -

(a) Laying underground sewage pipes in Blocks 20, 21, 24, 30 and 31 with 7" stoneware pipes and main outfall sewers of stoneware pipes 12" to 21" and cast iron pipes 24" size

(b) Constructing a septic tank for treatment

(c) Acquisition of land and installation of sewage pumps for lifting the sewage for final disposal by irrigation

The main outfall sewer is proposed to be completed in all respects under the present estimate as proposed in the comprehensive scheme with full capacity for dealing with the sewage of the whole town eventually

The construction of the septic tank for treatment and arrangements for disposal will also be completed to deal with the total quantity of sewage from the whole town as per proposals in the comprehensive scheme

5 The areas to be taken up under the present estimate for providing underground sewers are shown in blue, in plan, and those to be taken up later in red The poorer localities proposed to be provided with street drains are shown hatched in plan for distinction

6 The Mysore Stoneware Pipes and Potteries Ltd, were consulted regarding the supply of stoneware pipes of different sizes required for the work They have replied that they would be able to take up the manufacture and supply of these pipes in view of the release of orders from military supply now, and

and complete the supply of all sizes in the course of a year from the date of order the Mysore Iron & Steel works who were consulted regarding cast iron pipes have also replied that they would be able to complete the order for the supply of all C I pipes required for the work in about four months

The sewage pumping machinery required for lifting the treated sewage from the septic tank is ascertained to be available with Messrs Kirloskar & Co , who were consulted in the matter They are also in a position to supply the required machinery within six months from the date of placing the order

8 Due to the cessation of war the situation of labour is also improving Other materials required for the work such as cement and bricks for the construction of man-holes can also be procured easily now

9 Regarding the plan of work -

Construction of septic tank and laying of main sewers are proposed to be taken up in the first years programme and laying of the sub-mains and street sewers taken up in the second year's programme All the items of work can be completed in two to three years from the date of commencement and service started

10 The work is proposed to be carried out by the Bureau of Sanitary Engineering under the P W D A full time Assistant Engineer in charge of an independent sub-division formed for the purpose is proposed to be in direct charge of the works with Head-quarters at Shimoga

11 The total cost of the comprehensive scheme to provide underground sewers to the whole town of Shimoga would cost at present rates about ten lakhs including 3½ lakhs for works now estimated for the balance of ₹ 6 lakhs is towards laying underground sub-mains and street sewers in Block Nos 3, 5, 7, 8, 9, 10, 11, 12, 13, 17, 18, 19, 22, 25, 28 and 29, not included in the present estimate but proposed to be taken up later and linked on to the main outfall and disposal works which will be completed under the present estimate, to suit the ultimate and total requirements as proposed in the comprehensive scheme

12 The first stage work if sanctioned can be taken up and completed in all respects in two to three years time, and the comprehensive scheme of ten lakhs in four to five years time

Chandrashekharaiah
SANITARY ENGINEER
16/11/45 16/11/45

NOTE FOR CIRCULATION

Subject Execution o the underground drainage scheme in the Shimoga Town Municipality

These papers relate to the underground drainage Scheme in Shimoga Town The question of taking up the scheme has been under contemplation from the year 1935-36 In order to meet the requirements of the enhanced Town a modified estimate has been submitted by the Deputy Commissioner Shimoga District for the execution of the underground drainage scheme at a cost of Rs 13 485/- including a minor estimate for Rs 32 500/- for carrying out surface drainage work in certain poorer localities in the Shimoga Town This estimate has been scrutinised by the Chief Engineer for Roads and Buildings and corrected to Rs 5 40 856/- It is reported to relate to the Ist stage of the comprehensive drainage scheme which costs about ten lacs The balance of work costing Rs 4 o lakhs as seen from the report of the Sanitary Engineer pertains to the laying of underground sub-mains and street sewers in certain localities The work of the Ist stage is proposed to be completed in 2 or 3 years

In regard to the financing of the scheme costing Rs 5 40 856/- the Deputy Commissioner recommends sanction to the following proposals submitted by the Municipal Council -

1 that an outright grant equal to three fourths of the estimated cost of the scheme may be made by the Govt, the other one-fourth being met by the Municipal Council as the financial position of the Municipal Council is not sou

2 In order to enable the Municipal Council to meet their share of the cost a loan equal to ¼ of the cost as proposed above may be advanced as loan bearing interest at 3½ per cent and repayable in 25 annual instalments The loan is proposed to be repaid by earmarking the additional income under Konatarfa Octroi Revenue sale of sites and under stamp duty

In this connection it may be stated that the financial condition of the Municipal Council as seen from the sanctioned budget estimates for the year 1945-46 is unsatisfactory To a supplementary question in the Budget Representative Assembly Session 1945 in regard to the eradication of Malaria in Shimoga Town the then Minister for Local Self Government had promised to settle the question relating to the drainage scheme very early And moreover there have been repeated representations from the Municipal Council urging for the scheme being sanctioned early in order to improve the general health of the Town

In the above circumstances and in view of the fact that a good drainage scheme for this important Town is overdue and is sure to make a great difference in the health of and amenities to the citizens it is considered necessary to sanction the scheme and to give an outright grant equal to three fourths of the estimated cost of the scheme the balance i e one fourth of the cost being advanced as a loan to the Municipal Council carrying interest at 4½ per cent and repayable in 15 annual instalments from out of the sources pointed out by the Municipal Council The Government grant is

proposed to be paid in three annual instalments from out of the provision made in the State Budget for Town Improvement grants commencing from the current year
